Community Led Local Development: EU Funding Policy 2014 - 2020

Foundations for LEADER in Ireland:

In 1950's and '60's the beginning of 'self support' volunteer based movements for un-met social and economic challenges

During the 1980's there is the emergence of local 'integrated' Development Groups developing plans to encourage the re-energising of communities (Rural) in danger of disappearing

LEADER became the facilitator to enable these plans to be realised
